

Special Vehicle Windshield Listing: Exterior Tags Required as of August 2001

The vehicles listed below are equipped with special windshields that contain metal in the glass that prevents the E-ZPass tag from being read properly. Customers with these windshields on either Canadian or U.S. manufactured vehicles must obtain exterior tags. If you are unsure about whether your vehicle has one of these windshields, check your vehicle's original paperwork or contact the dealer where you purchased your vehicle. This vehicle list may change. If your vehicle is not listed on this chart, refer to the E-ZPass link at www.peacebridge.com. This linked site will offer the very latest information available. If you still have any questions regarding your vehicle, call the Customer Service Center contracted to service all Peace Bridge Accounts at **1-866-522-6080**.
