From: Christopher Bonn – Administrative Supervisor
Subject: Peace Bridge Overwidth and Overweight Construction Restrictions
October 15, 2018 to May 15, 2019

Beginning October 15, 2018, and concluding May 15, 2019, the Peace Bridge center lane will be closed to complete the final phase of the Peace Bridge rehabilitation project.

As the work is being done in the center lane of a 3-lane bridge, it is impossible to accommodate oversize and overweight vehicles during this construction phase and therefore these trucks will be prohibited from crossing the Peace Bridge.

While this restriction will impact vehicles operating under overwidth and overweight permits – all vehicles meeting normal Ontario Highway Traffic Act or New York State Department of Transportation size and weight limits will not be affected.

The Niagara Falls Bridge Commission will assist in getting overwide and overweight vehicles across the Niagara River via the Queenston-Lewiston Bridge. Contact their Operations Center at:

905-354-5641 ext. 4161 or 716-285-6322 ext. 4161
